Subject DIPE FINAL HPV submission

Attached is final HPV submission for diisopropyl ether (DIPE) (CAS # 108-20-3) by the American Chemistry Council Isopropanol Panel Diisopropyl Ether Task Group (DETG). Members of the DETG are Shell Chemical LP and ExxonMobil Chemical Company. Through this submission, the HPV commitment of DETG is fulfilled.

On March 6, 2006, the DETG submitted for review and public comment its revised test plan for Diisopropyl Ether (CAS # 108-20-3) under the Environmental Protection Agency's High Production Volume (HPV) Chemical Challenge Program. In December 2007, the DETG received comments on the test plan and robust summaries. The attached final submission has been revised to incorporate the comments received.

If you have any questions or comments, please feel free to contact me. Below, my contact information is provided.

Best regards, Sarah McLallen
